

These comments are in support of retaining the local translator for use by the K-Love radio network. K-Love, WKVE 106.7 in my area is the radio station my wife and I listen to exclusively, at home, in the car, and at work. It truly is positive and encouraging twentyfour seven filling the airwaves with the message of hope and encouragement we so desperately need. The testimonies are overwhelming of how lifes have been turned around and changed due to the positive message heard in the music and from those that deliver it. This is truly a family friendly radio network where you never have to worry about what will be said by an announcer or heard in the lyrics of a song. Don't you think this country could use more of that? I shutter to think how life would be without my K-Love if it were to be replaced by a LPFM broadcaster providing another format. I believe young people especially are better influenced by listening to positive encouraging Christian music then by another hip-hop, rap, rock & roll, or even country station, and young people do tune in to K-Love because they are captivated by the sound, and they are moved and changed by the message. I offer you this challenge; try K'Love for yourself. Find the local translator in your area, or log on to www.K-Love.com. Thank you for the opportunity to speak out for the best radio station ever put on the airwaves. May it remain there.
